**Academic Guidance of**
**International Undergraduate Programs**
**2017/2018**
FOREWORD FROM THE DEAN

Praise be to Allah SWT so that the Academic Guide Book International Program the Faculty of Economics and Business University of Brawijaya 2017/2018 can be completed. This book is structured to be used as a reference in the organization of teaching and learning process in the International Program, the Faculty of Economics and Business University of Brawijaya. Teaching and Learning Process is the most dominant activities in the environmental education and higher education institutions. Teaching and Learning Processes in the International Program of the Faculty of Economics and Business University of Brawijaya are directed to meet the basic principles contained in the new paradigm of higher education restructuring in Indonesia. The new paradigm includes five areas: quality, autonomy, accountability, accreditation and evaluation. Moreover, aspects of effectiveness, efficiency and productivity are also characteristics inherent in all activities that support Teaching and Learning Process.

In realizing the success of teaching and learning processes associated with many aspects, we need a reference on various aspects and standards. To remain aware of its shortcomings, this academic guide book is expected to be one source of reference that could be used at least in the overall activity of learning and teaching process. This academic guide book is organized by involving all elements associated with the implementation of teaching and learning process. Therefore, with the legalization of this book, it is hoped all academic members (lecturers, students, and employees) have committed to implement the rules contained in this academic guide book.

To all involved in the preparation of this academic guide book, the faculty express thanks and appreciation.

Malang, Juli 2017
Dean

Nurkholis, SE., M.Bus.(Acc), Ak., Ph.D

CHAPTER I
INTRODUCTION

VISION

Becoming a higher education institution in economics and business that has an international reputation, entrepreneurial spirit, spiritual insight, humanity, and environmental awareness.

MISSIONS

1. Delivering research based economics and business education with international reputation, entrepreneurial spirit, spiritual insight, humanity, and environmental awareness.
2. Nurturing and developing knowledge and technology in economics and business through research that promote local wisdom and universal values.
3. Inspiring, empowering, enlightening and serving society through education, research, training, and consultation.

BRIEF HISTORY OF FACULTY OF ECONOMICS AND BUSINESS

UNIVERSITY OF BRAWIJAYA

Originally, Faculty of Economics and Business, University of Brawijaya was Malang College of Economics (MCE). It was founded by the Educational Foundation of Malang College of Economics (EFMCE) on 27 June 1957, under Notary Act number 26 dated 15 August 1957. Then the foundation was chaired by Major Polak, who in the same time was the Head of the Department at the Faculty of Teaching and Educational Science (FTES) Airlangga University located in Malang.

Furthermore, on 3 October 1961, Malang College of Economics became a part of University of Brawijaya called Faculty of Economics, University of Brawijaya (FEUB) in which it is also one of foundation faculties.
of University of Brawijaya (UB). Actually, the name of University of Brawijaya was given by Soekarno, the first President of the Republic of Indonesia, through his telegram number 258/K/1961 dated 11 July 1961. Previously, the University was named Malang Kotapraja University. Then on 5 January 1963, under the legislation of Ministry Decree number 1/1963, University of Brawijaya legally became a State University.

At the beginning, Faculty of Economics only had two departments named Economics and Management. Furthermore, the faculty opened a new department named Accounting Department in 1977. Up to now, there are thirteen deans who have been the chief of Faculty of Economics, University of Brawijaya (FEUB) during forty eight years since its establishment. Below is the list of Deans’ name of Faculty of Economics and Business, University of Brawijaya:

<table>

<th>Period</th>
</tr>
</thead>
</table>

Faculty of Economics is one of twelve faculties within University of Brawijaya. The faculty offers two programs: undergraduate and postgraduate programs. The undergraduate and postgraduate programs offer three fields of study including Economics, Management, and Accounting. In 2007, the Faculty of Economics opens international undergraduate program which offers three departments: Accounting, Management, and Economics. This program is established to fulfil the need of the global challenge.

Furthermore, based on the recommendation of Senate Meeting with the leaders of the Faculty on April 2010, coordination with the leaders of the University and other faculties, Dean’s Roundtable Discussion, and also the international accreditation standards encourage Faculty of Economics to transform into Faculty of Economics and Business. This is strengthened by the Rector’s decree on January 14, 2011.
**BASIC, FUNCTION, OBJECTIVE AND EDUCATION PROGRAM IN FACULTY OF ECONOMICS AND BUSINESS UNIVERSITY OF BRAWIJAYA**

**BASIS AND FUNCTION OF EDUCATION**

Constitution No. 20 Year of 2003 concerning National Education System mentions that the national education refers to Pancasila and Indonesian Constitution 1945.

The functions of National Education are to develop the ability and also to increase the quality of life and the dignity of Indonesian people in relation to the realization of the national objective.

**The Objective of Higher Education**

The Government Rule No. 60 Year of 1999 concerning Higher Education defines that the objectives of Higher Education are:

− To prepare students to be the members of society who have good academic ability and/or professional, and who can also apply, develop, and/or create knowledge, technology, and/or art.
− To develop and spread knowledge, technology, and/or art, and also to attempt its use to increase society living and enrich national culture.
− The organization of above activities have to be based on (a) the objective of national education, (b) rules, moral, and knowledge ethics, (c) the need of society, and also (d) considering the preference, ability, and self motivation.

**The Objective of Faculty of Economics and Business University of Brawijaya**

The objective of education in Faculty of Economics and Business University of Brawijaya is to create graduates with following qualifications:

− Having the Pancasila spirit and high personal integrity
− Being open minded, responsive toward technological and knowledge change and progress, or problems faced, especially those related to Economics, management, and accounting.
− Having the ability to apply the knowledge and technological ability mastered.
- Mastering scientific principles and economics, management, and accounting knowledge; thus they are able to find and analyze and also formulate the solution of problem in their expertise
- Having the ability to update their knowledge and technology which is appropriate with their field

**EDUCATIONAL PROGRAM IN THE FACULTY OF ECONOMICS AND BUSINESS UNIVERSITY OF BRAWIJAYA**

Referring to the Letter of the Decision of Ministry of Educational Affair No. 232/2000, the educational program of Faculty of Economics and Business University of Brawijaya consists of academic education and professional education.

**Academic Educational Programs:**
1. Undergraduate Program (S1)
   a. Economics
   b. Management
   c. Accounting
   d. Islamic Economy
   e. Finance and Banking
2. International Program (S1)
   a. Economics
   b. Management
   c. Accounting
3. Master Program (S2)
   a. Master of Economics
   b. Master of Management
   c. Master of Accounting
4. Doctoral Program (S3)
   a. Economics
   b. Management
   c. Accounting

Beside the various educational programs mentioned above, the Faculty of Economics and Business University of Brawijaya is also offering Accounting Profession Education Program (PPAk) and Joint Degree Program (PPAk & Master Program).
Begin from academic year of 2007/2008 Faculty of Economics and Business, University of Brawijaya also opened the pioneering of International Undergraduate Program started from the opening of English class for Accounting Department followed by Economics and Management Department in academic year of 2008/2009.
CHAPTER I - Introduction
CHAPTER II
SEMESTER CREDIT SYSTEM

SEMESTER CREDIT SYSTEM AS EDUCATION MANAGEMENT SYSTEM

According to the existed system for all Faculties in University of Brawijaya, education system in Faculty of Economics and Business uses Credit Point System.

THE BASIC SYSTEM OF SEMESTER CREDIT

Semester Credit System (SKS) is implemented on the basis of:

a. Constitution Number 2 Year 1989 concerning National Education System.

Faculty of Economics and Business, University of Brawijaya as a higher education always concerns following factors in organizing the implementation of economics education:

a. The need of society toward experts which is getting increase.

b. Students as protégés who are individually different in aptitude, interest, and academic ability.

c. The development of science and technology which is growing rapidly.

d. Human Resources as implementers and supporters of the running of three duties of higher education (Tri Darma Perguruan Tinggi).

e. Education facilities such as rooms, library, laboratories, and other supporting facilities.

f. The changing of the environment regionally, nationally, or internationally.

g. Ethics and morality which exist in the society.
DEFINITION OF SEMESTER CREDIT SYSTEM

− Semester Credit System is an education management system by using credit points (CPs) to state students study load, lecturer work load, and education program management load.
− Credit is a stated unit for certain subject quantitatively.
− Semester is a stated term of activity for 16 to 19 weeks of lecturing or other scheduled activities including the additional activities for two to three weeks of assessment activities.

By using this Semester Credit System, students will be able to choose subjects based on their capability and interest, in order to:
− Finish their study as quick as possible.
− Ease to adjust the curriculum in accordance with science and technology development.
− Give a possibility for the implementation of good student study performance evaluation system.
− Give a possibility for credit transfer between programs and faculty within one university or among universities.

CREDIT POINTS, FINAL SCORES, AND STUDY LOAD

SEMESTER CREDIT POINTS FOR LECTURES

Points for one semester credit point per week for students equal with:
− Fifty (50) minutes for scheduled lectures with lecturer, for example in the form of studying in class, laboratory practices, and tutorial.
− Sixty (60) minutes for structured academic activities, that is unscheduled study activity but already planned by the lecturer, for example in the form of doing homework or exercises.
− Sixty (60) minutes for self assessment academic activities to have deeper understanding, to prepare courses, or to reach other goals in the form of academic assignments, for example reading books or references.

Points for one semester credit point per week for lecturers equal with:
− Fifty (50) minutes for scheduled lectures with students.
− Sixty (60) minutes for planning and evaluating structured academic activities.
− Sixty (60) minutes for developing lectures subjects.
CHAPTER II - Semester Credit System

SEMESTER CREDIT POINTS FOR SEMINAR

Points for one semester credit point per week for students equal with:
- Fifty (50) minutes for scheduled lectures with lecturer in the form of papers presentations.
- Sixty (60) minutes for structured self assessment activities which are scheduled, for instance by searching references.
- Sixty (60) minutes for self assessment activities, for example by designing papers.

Points for one semester credit point per week for lecturers equal with:
- Sixty (60) minutes for scheduled lectures with students.
- Fifty (50) minutes for seminars and correcting papers.
- Sixty (60) minutes for guiding the making of papers.

SEMESTER CREDIT POINTS FOR RESEARCH, LABORATORY PRACTICE, AND INTERNSHIP

- Point for one semester credit point of research (in the form of thesis) equal with research assignment load for three up to four hours a day for one month. One month equals with 25 work days. In addition, thesis is also equal with two elective courses in which each of them has three credit points (3 Cps).
- Point for one semester credit point of laboratory practices equal with assignment load for three to four hours per week in laboratory for one semester.
- Point for one semester credit point of internship equal with activity load in the field for four to five hours per week for one semester and also align with the minimum activity load in the field for 25 effective work days.

STUDY LOAD

Based on The Regulation of The Minister of Education and Culture Republic of Indonesia Number 232/U/200 Year 2014, the study load of Undergraduate Program is not less than 144 CPs in which it is arranged for 8 semester (4 years) and can be taken less than 8 semester, but it has to be no more than 14 semester (7 years).
For the first semester, student study load is given in package so that each student has the same study load. Meanwhile, on the next semester, student study load in one semester will be based on students’ basic capability shown on the GPA (Grade Point Average) of the last semester.

Student’s GPA per semester is calculated by using this formula:

\[
GPA = \frac{\sum_{i=1}^{n} C_i * GPW_i}{\sum_{i=1}^{n} C_i}
\]

Notes:

- GPA = Grade Point Average
- \(\sum_{i=1}^{n} i\) = The amount of i equal with 1 up to n course
- \(C_i\) = Load of semester credit system of the i course
- \(GPW_i\) = Grade Point Weight of the i course

**FINAL SCORES**

A final score for each course taken by students is calculated in two steps. The first step is by deciding absolute score (AS) based on five assessment components, which are participation and contribution in the class activities (P), structured assignment point (SA), quiz score (Q), middle semester test score (MST), and final semester test score (FST). In general, Faculty of Economics and Business, University of Brawijaya applies the scoring pattern below to determine student score:

<table>
<thead>
<tr>
<th>Scoring Components</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class Participation/Contribution</td>
<td>15%</td>
</tr>
<tr>
<td>Quiz</td>
<td>15%</td>
</tr>
<tr>
<td>Structured assignment</td>
<td>20%</td>
</tr>
<tr>
<td>Middle semester test</td>
<td>25%</td>
</tr>
<tr>
<td>Final semester test</td>
<td>25%</td>
</tr>
</tbody>
</table>
Next, absolute score for each subject can be counted by using this formula:

\[
AS = 0.15 P + 0.15 Q + 0.20 SA + 0.25 MST + 0.25 FST
\]

However, for Seminar course, there will be a different way in counting the score as the final score should be adjusted to its lecturing process. For instance, the scoring components in Seminar can cover participation/contribution in the class, paper presentation, paper quality, and other structured assignments. Besides this course, lecturer can also determine the weight of scoring components on the basis of course characteristic and the aim of the lecturing activity. Whereas, the scoring components counted at least include 4 (four) components.

The second step is by converting absolute score to Alphabetic Grade on the basis of this format:

<table>
<thead>
<tr>
<th>Absolute Score</th>
<th>Alphabetic Grade</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>&gt; 80 - 100</td>
<td>A</td>
<td>4,0</td>
</tr>
<tr>
<td>&gt; 75 - 80</td>
<td>B+</td>
<td>3,5</td>
</tr>
<tr>
<td>&gt; 69 - 75</td>
<td>B</td>
<td>3,0</td>
</tr>
<tr>
<td>&gt; 60 - 69</td>
<td>C+</td>
<td>2,5</td>
</tr>
<tr>
<td>&gt; 55 - 60</td>
<td>C</td>
<td>2,0</td>
</tr>
<tr>
<td>&gt; 50 - 55</td>
<td>D+</td>
<td>1,5</td>
</tr>
<tr>
<td>&gt; 44 - 50</td>
<td>D</td>
<td>1,0</td>
</tr>
<tr>
<td>0 - 44</td>
<td>E</td>
<td>0,0</td>
</tr>
</tbody>
</table>

Note:
E will also be given to the student who has programmed the Course Planning (KRS), but s/he never attends lecturing activities. However, the lecturer also has a right not to give the score.

**THE EVALUATION OF THE STUDY**

Student study performance is stated in GPA and written in alphabetic score. For Undergraduate Program, study performance evaluation is implemented not less than every first year, second year, third year, and fourth year.

Students study period is counted since the first registration as a student to the graduation, except the period when the student has a legal terminated status (academic furlough) given by the Rector.
PASSING STANDARD OF THE STUDY AT THE END OF THE SEMESTER

The evaluation of the study at the end of the semester is based on student’s GPA at that semester. It is used to determine the study load that can be taken for the next semester. The determination can be described as follows:

<table>
<thead>
<tr>
<th>GPA</th>
<th>Credit Points (CPs)</th>
</tr>
</thead>
<tbody>
<tr>
<td>≥ 3,00</td>
<td>22 – 24</td>
</tr>
<tr>
<td>2,50 – 2,99</td>
<td>19 – 21</td>
</tr>
<tr>
<td>2,00 – 2,49</td>
<td>16 – 18</td>
</tr>
<tr>
<td>1,50 – 1,99</td>
<td>12 – 15</td>
</tr>
<tr>
<td>&lt; 1,50</td>
<td>&lt; 12</td>
</tr>
</tbody>
</table>

FIRST YEAR STUDY PERFORMANCE EVALUATION

At the end of the first year since students are registered at Undergraduate Program of Faculty of Economics and Business, University of Brawijaya, there would be an evaluation to decide whether students are able to continue the study or not. Students are permitted to continue their study if they fulfill these requirements:

- Collecting not less than 24 credit points.
- Attaining GPA not less than 2.00 based on 24 credit points taken from the best score of certain courses.

SECOND YEAR STUDY PERFORMANCE EVALUATION

Students from Undergraduate Program are permitted to continue their study after the second year when they fulfill these requirements:

- Collecting not less than 48 credit points.
- Attaining GPA not less than 2.00 based on 48 credit points taken from the best score of certain courses.

THIRD YEAR STUDY PERFORMANCE EVALUATION

Students from Undergraduate Program are permitted to continue their study after the third year when they fulfill these requirements:

- Collecting not less than 72 credit points.
- Attaining GPA not less than 2.00 based on 72 credit points taken from the best score of certain courses.
CHAPTER II - Semester Credit System

FOURTH YEAR STUDY PERFORMANCE EVALUATION

Students from Undergraduate Program are permitted to continue their study after the fourth year when they fulfil these requirements:

- Collecting not less than 96 credit points.
- Attaining GPA not less than 2.00 based on 96 credit points taken from the best score of certain courses.

THE EVALUATION OF THE STUDY AT THE FINAL YEAR

This evaluation is implemented at the end of student study period. Maximum study period for Undergraduate Program is 14 semesters; while for transfer program, the maximum study is subtracted by the approved study period when they are accepted as students of Faculty of Economics and Business, University of Brawijaya. For Transfer Program students, the maximum study period to attain undergraduate program is 8 semesters. Students will be stated pass (graduated) in this evaluation if they fulfil these requirements:

1. Collecting minimum of 144 credit points in conformity with the curriculum which is already considered by each department (including passing the thesis).
2. GPA is not less than 2.00.
3. No E for final score.
4. D+ or D score is 10% the maximum from total credit points which should be taken as graduate requirements.
5. Courses that are permitted to have D+ or D score are elective courses in each department.
7. Must complete Overseas Academic Program (OAP) and/or Internship.

The detail of the point 7 will be arranged further by Vice Dean for Student Affairs.
GRADUATION PREDICATE

1. Graduation predicate consists of 3 levels; those are Satisfactory, Very Satisfactory, and Cum Laude. This predicate will be stated in the academic transcript.

2. The basis of graduation predicate consideration is GPA arranged as follows:
   - GPA of 2.00 – 2.75  Satisfactory
   - GPA of 2.76 – 3.50  Very satisfactory
   - GPA of 3.51 – 4.00  Cum Laude

Besides fulfilling the GPA stated above, for graduation predicate of Cum Laude, the maximum study period should be 10 semesters for Undergraduate Program. Meanwhile, for Transfer Program, the study period (10 semesters) is subtracted by the approved study period when they are accepted as students of Faculty of Economics and Business, University of Brawijaya.

SHORT SEMESTER PROGRAM

a. Short semester program is lecturing process held in the occasion between fall semester in a certain academic year and spring semester in the next academic calendar. Short semester lecturing process consists of 16 meeting including middle semester test (MST) and final semester test (FST).

b. The goal of this program is to give opportunity for students to improve their course scores which were already taken before in order to increase their GPA, to shorten the study period, and also to avoid dropping out.

c. Courses offered are pre-requisite courses in each department or program and also other courses viewed necessary by the department or program if the interested students for those courses are not less than 30 students per class.

d. In a special case, Faculty could cancel certain offered courses in the Short Semester.

e. Students may take 2 courses maximally.

f. To join Short Semester program, students are charged for the tuition fee defined by the Faculty.

g. Courses which can be taken in the short semester are those that have been taken before and got minimum D score.

h. If students disobey Short Semester program rules in this guideline book, all courses taken on the short semester will be failed.
INTERNSHIP

a. The internship program should be taken before the process of minor thesis (skripsi) writing for 1-2 months (based on the regulation from each department). The internship program allowed is only at one of Multinational Corporations (MNC), Public Accounting Office, State Own Enterprise (BUMN) or Public Listed Enterprise with international affiliation (based on supervisor’s suggestion). Other places than those will not be accepted.

b. Students also have to ensure that the activities conducted during the internship program are mostly related to the level of knowledge have been gained during the study process. The internship program may also be taken overseas as part of overseas academic program.

c. The internship report must be written here after and supervised by a lecturer selected by the Head of International Program.

d. The internship report must be finalized before taking comprehensive examination.

e. Students who have taken Exchange or Double Degree Program are allowed to not conduct an internship but they must write their Exchange/Double Degree report as their Internship report.

TOEFL SCORE UPDATES

a. Students are obliged to update their TOEFL scores at the end of every semester, starting from Semester 1 up to the last semester or before taking comprehensive examination.

b. Every updated TOEFL score from each student must be submitted to the head of the class along with the TOEFL certificate as the evidence of the latest score. Then, after compiling the documents from the class members, the head of the class must transfer them to the administrative staffs of the International Program.

c. A complete updated TOEFL score of each student from the first up to the last semesters will then be used as the requirement to get the internship mark. Once the students could not meet the requirement of TOEFL score updates, the internship mark could not be processed.

d. Please refer to the Dean’s Decree Number 049/UN10.2/SK/2015 (Appendix 10)
OVERSEAS ACADEMIC PROGRAM (OAP)

International Program at FEB UB is aimed to target students to have broader views of an International practices and experiences. Since the beginning of the program offered, the students were asked to have international exposure. The Program is called as Overseas Academic Program (OAP).

OAP is academic activities which aim to provide students with understanding and experience of trans-national academic, cultural and business traditions in the surrounding university partners.

The types of OAP are:
- Double Degrees (two semesters)
- Exchange (one semester)
- Summer School Program
- Internship

Activities include:
- Class Lectures
- Multi Cultural meeting and gathering
- Library access
- Information technology Lab visit and access
- Business practices visit (surrounding the university partners)
- Case studies lectures
- Indonesian Students-- Association of the University partners (if any)
- Leadership and presentation in the university partners

For the Summer School Program (One Month program):
It must be held before the internship program in order to distribute the students’ study load evenly during each semester. It is suggested and expected that students conduct the OAP (one month program) during long holiday each year between even and odd semester. Therefore, this program will be beneficial for the students and not disturb the learning process during the semester.

Ideally, the OAP is taken at the end of 2nd or 4th semester. This is due to the fact that the study load at these semesters is not as heavy as at the end of 6th semester because students have to prepare the internship report or mini thesis writing.

Based on the OAP exposure, all the International students are asked to join OAP as one of requirements to be graduated at the FEB UB. The students are obliged to submit daily activities OAP by the time they return to Indonesia. Information related to the OAP can be checked also at the website of International
CHAPTER III
THE ORGANIZATION OF THE SEMESTER CREDIT SYSTEM

THE ORGANIZATION PROPERTIES OF THE SEMESTER CREDIT SYSTEM

The organization of the semester credit system requires the availability of the following properties:

ACADEMIC GUIDELINE BOOK
Academic Guideline Book summarizes rules related to the organization of teaching and learning process and its administration in faculty/major/program level.

ACADEMIC CALENDAR
Academic calendar contains the information of accepted time allocation in conducting various activities related to the organization of semester credits system, such as registration/re-registration, teaching and learning process, silent week, tests, score announcement, et cetera.

CURRICULUM AND GBPP
Curriculum describes the course list, type and its position, credit, its pre-requisite course in each major/program, course flow, and strategies in achieving instructional goal. The curriculum will be presented specifically in CHAPTER VII.

GBPP contains the concept of objectives and course main discussion. GBPP contains the components of specific and general instructional objective, topics or the main discussion, sub-discussion, course duration estimation and references source. GBPP is specially published as the supplement of academic guideline book.

ACADEMIC SUPERVISOR (AS)
The Academic Supervisor is assigned to do following duties:

− Giving information related to the usage of supporting facilities for academic and non academic activities.
− Helping students in overcoming academic problems.
− Helping students in arranging an academic planning.
Helping students in developing good learning behaviour and habit, so the independence of learning as an expert will be emerged.

Giving recommendation related to the success of the student learning process for certain urgency.

Helping students in developing their personality in order to create the real Indonesian people who have broad knowledge, behave, and act according to religious values, *Pancasila*, culture, et cetera.

Helping students to independently develop scientific learning knowledge during their lifetime.

These duties are started from the time when someone is officially registered as the student of Faculty of Economics and Business University of Brawijaya until he is pronounced theoretically graduated.

**ACADEMIC SUPERVISOR LECTURER**
Academic Supervisor Lecturer is determined by each department/program.

**THE ACTIVITY OF EACH SEMESTER**
Several steps are needed in conducting Semester Credit System which can be described as follows:

**ADMINISTRATIVE REGISTRATION**
Administrative Registration is the chain of activities aimed to achieve registered status as the student of Faculty of Economics and Business, University of Brawijaya. The administrative registration includes the following activities:

1. Paying the tuition fee
2. Achieving the re-active status for students who have finished their terminal or for those who are not registered in the previous semester for not much than two semesters in cumulative.
3. Filling the administrative registration form to have the Student Identity Card

The procedure of registration (for first year students) and her-registration (for old students) in detail is regulated by University of Brawijaya which can be seen in the announcement given at each beginning of new semester.
CHAPTER III - The Organization Of The Semester Credit System

ACADEMIC REGISTRATION
Academic Registration is the registration by the students in order to get the right to join academic activity in a certain semester. Academic Registration includes the following activities:

1. Course planning consultation with the academic supervisor or the Head/Secretary of the Program (if the student has a difficulty).
2. Course planning fulfilment inside the academic information system (SISKA) which can be done on-line using independent service post of SISKA or using computer laboratory facilities around the faculty.

For special cases, the course planning fulfilment has to be approved by the Head/Secretary of the Program or Vice Dean for Academic Affairs.

THE LECTURING
The lecturing is scheduled activity in form of tutorial, seminar, laboratory activities, or field work. As the reference of students’ success evaluation in the lecturing process, quiz, assignment, and test are normally held. Students are not allowed to join the lecturing if he/she does not obey the rules as regulated in certain part of this guideline book.

COURSE PLANNING CHANGE
Course planning change is the adjustment, cancellation, or changing of certain course in the same semester. The requirements of the adjustment, cancellation, or the course changing are as follows:

a. Adjustment can be done if (1) the maximum credits which able to be programmed are still possible to be taken, (2) there is a class quota available.

b. Change can be done on the basis of certain conditions below:
   - Due to certain reason the faculty changes the course schedule which can result the same schedule between certain courses and another course programmed after the end of course planning fulfilment period.
   - The score of short semester has not been given yet by the time of the course programming.
   - The course change can be done after getting the approval from the Head/Secretary of the Program.
EXAMINATION

Examination is the activity of evaluating teaching and learning success which is done in form of written and or oral test and held during the period of the semester. These examinations consist of mid-test, final test, and other examination held by each lecturer according to the lecturing plan. As for the seminar and practicum course, the lecturer can replace written test with another test according to the need of the course related.

The remedial test can be held if it is approved by the Head/Secretary of the Department after considering the reason of the absence of the students in mid-test or final-test, for example the student is ill (proven by a letter from doctor) or due to the other emergency reasons. The organization of remedial test is determined by the Head/Secretary of the Department and at least held 3 (three) days after the end of mid-test or final test.

Students are able to join the final examination after they joined at least 80% of the lecturing process in that semester and fulfilled other requirements. For those joining the lecturing less than 80% are not allowed to join the final examination for the course related.

Every student is given the opportunity to repair their score by retaking the courses with the score of $\leq C+$ score. The requirements of retaking the course with $C+$ score are as follows:

1. The opportunity of retaking the course is done at most twice both in regular semester or short semester.
2. The retaken course is not more than 3 semesters since the first time the course is taken.

For those getting $< C$ score, they are able to have the test until they are considered pass the course (getting $\geq C$ score). The course with E score is allowed to be retaken only in regular semester.

If the course is taken more than once, then the score taken is the highest score achieved by the students. The score of the retaken course is at most $B+$.
FINAL GRADE
Five days after the examination conducted and at least five days after examination week ended, the faculty announces the students’ final score. If the score has not been collected by the lecturer after the deadline, then the score will be determined by the program with temporary C score for the student whose presence is at least 80%. If the lecturer has not given the result until 2 (two) weeks after the end of the examination, then the whole student will be given the final score by referring to the following table 3.1:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

SEMESTER REPORT
Semester Report is an academic document that informs the whole record of students’ learning process in certain semester which includes the number of courses taken, the number of credits, grade of each course, grade point at that semester, grade point average (GPA), and the number of credits allowed to be taken in the next semester. Semester report is issued at least two weeks after the end of the final examination.

THE STATUS CHANGE OF STUDENTS
The Status Change of Students includes: 1) Mutation 2) Transfer 3) Exchange Program. All of its procedure and requirement are presented in Education Guideline Book of Brawijaya University.
CHAPTER IV
MINOR THESIS

A Minor Thesis is student’s scientific report written based on research result. It has to be written by referring to certain writing format in accordance to guideline book of Minor thesis writing of the Faculty/Department. This Minor thesis is the prerequisite procedure for students to have the Final Examination.

REQUIREMENT OF WRITING

In order to write the Minor thesis, students have to fulfil the following requirements:

1. Programming the minor thesis writing in the Course Planning of the current semester.
2. Fulfilling the form of minor thesis writing proposal provided by the Program as the proof of registration and the basis to decide the advisor.
3. Having been passed Research Methodology course.
4. The course allowed to be taken at the same time as the Minor thesis is at most 2 courses, excluding KKN-P course (Internship).
5. Complete the academic writing skill course.

WRITING PROCEDURES

1. Writing the Proposal of Minor thesis which has been submitted and approved by advisor.
2. Conducting research activity.
3. Conducting consultation to the advisor
4. Recording the process of minor thesis consultation signed by the advisor on the Minor thesis Consultation Report.
5. Getting the approval of Minor thesis accomplishment from the advisor.
CHAPTER IV - Final Project

THE REQUIREMENT OF ADVISOR

The head advisor of minor thesis writing is at least holding the academic position of Expert Assistant and holding Master Degree (S-2), or can be elected by the Head/Secretary of the Department by considering potential and the resources availability.

THE PERIOD OF ACCOMPLISHMENT

The Minor thesis Writing has to be accomplished in 1 (one) semester, and if it has not been accomplished yet, the time can be extended at most for 1 (one) semester with the approval of the advisor or the Head/Secretary of the Department after considering the progress achieved. If in 1(one) year the minor thesis Writing has not been accomplished yet, then the Head/Secretary of the Department can change the advisor or the thesis title.

WRITING SYSTEMATICS

Systematic and format of writing Minor thesis is specifically regulated in Guideline Book of Minor thesis Writing and can be downloaded from the IUP website.
CHAPTER V
FINAL EXAMINATION

CHARACTERISTICS AND OBJECTIVES

a. Final Examination is a comprehensive examination held at the end of the study period consisting of Thesis Examination and relevant Theory Examination.

b. Final Examination is conducted orally in front of the board of examiners.

c. Final Examination is aimed to fulfil one of the requirements to achieve undergraduate degree of Economics (SE).

MATERIAL

The material of the Final Examination consists of:

1. Thesis
2. Theories relevant to the field of each department.

REQUIREMENTS OF THE FINAL EXAM APPLICATION

1. TOEFL Score of 525
2. Has taken an overseas academic program

THE MANNER OF APPLICATION

The manner of application of Final Examination includes:

a. Fulfilling the administrative requirements:
   1. Registered as the active students in the current semester proven by the original Students Identity Card.
   2. Registering to each major/program.
   3. Submitting the payment check for tuition fee and the Final Examination fee
   4. Submitting curriculum vitae and recent photograph.
   5. Submitting statement letter for not conducting plagiarism (with stamp).
6. Submitting letter of authentication of conducting research from related institution (for the students who conduct a research in certain institution)

7. Submitting the legalized copy of Senior High School certificate

b. Fulfilling the academic requirements:
   1. Submitting the Thesis which has been approved by the advisor.
   2. Submitting the consultation report.
   3. Passed the entire obligatory course.
   4. Has been considered as passing the theory by the major/program (students are allowed to know their theory passing status before register for Final Examination).
   5. Submitting the copy of the Course planning as the proof of programming Minor thesis.

**BOARD OF EXAMINERS**

1. Final Examination Board of Examiners is selected by Dean by the recommendation of the Head of the Department/the Head of the Program.
2. Final Examination Board of Examiners consists of advisor and two independent examiners.
3. The role of advisor in Thesis examination is as the associates of his/or her student.
4. If the advisor is unable to come, then the Final Examination can only be held under the permission of Head/Secretary of the department/program and students.
5. The member of Board of Examiners are at least Lector and hold the master degree/of the same degree or can be selected by the Head/Secretary of the program by considering potential and resource availability of the program. In certain case and consideration, the Head/Secretary of the department/program has the right to change the formation of member of board of examiners candidates.

**IMPLEMENTATION TIME**

1. The duration of Final Examination is at most 90 minutes
2. Students are able to join Final Examination after:
   a. Fulfilling the administrative and academic requirements.
   b. Holding the time agreement with the board of examiners.
c. The schedule and the place of final Examination are determined by the program.

3. The examination is conducted at least in two weeks after administrative and academic requirements are fulfilled. In certain case and consideration, the Head/Secretary of the program can determine different time for the implementation of the examination.

4. The participants of the Final Examination are obliged to wear white and black clothes, official cap, and tie.

ASSESSMENT

1. The assessment of the Final Examination is conducted by considering several components, those are:
   - The quality of the minor thesis
   - The ability in explaining and defending the minor thesis
   - The mastering of relevant theory related to the discipline in each program.
   - Behaviour/attitude of students during the examination

2. The score of the Final Examination is defined by board of examiners after having a deliberation, and presented it in alphabetic grades A, B+, B, C+, C, D+, D, or E.

3. Students are considered passed the Final Examination with at least C score.

MINOR THESIS REVISION

1. Students considered passed the Final Examination with revision do not have the right to have the score when the score of Final Examination is announced. The score is announced after the revision is approved by board of examiners and acknowledged by the Head/Secretary of the Department/Program.

2. Points of revision recommended by the board of examiner have to be written down clearly in the Final Examination Report.

3. The time available for the revision is at least 1 (one) month started from the announcement of the Final Examination result. If the students pass this deadline, the examination score will be cancelled and the student is obliged to have another Final Examination.
CHAPTER V - Final Examination

REMEDIAL EXAMINATION

1. Remedial Final Examination can be taken only by students who are considered to be failed or those who have passed the revision deadline. The opportunity of remedial are given for at most 3 (three) times during the remaining period study.

2. If the student has taken the Final Examination for 3 (three) times and still failed, then the board of examiner will give him/her a special assignment in form of making resume/summary of one or several courses which has not been mastered by the student.

3. The time given in making the resume/summary is at most 1 (one) month started from the assignment giving until the end of his study period. After the result of resume/summary is approved by the board of examiner, the student can be considered as succeeded in passing the examination with C score.

THE ANNOUNCEMENT OF THE EXAMINATION RESULT

1. The examination result is announced by the board of examiners or the Head/Secretary of the Department/Program.

2. The Head/Secretary of the Department/Program after having a consultation with the board or team of examiners has the right to delay the announcement of final examination result of a student by considering academic and administrative matters.

3. By the time the student attends the announcement of the final examination result; they have to wear the same clothes as they wore for the final examination.

GRADUATION

1. For the student who has been considered passing the final examination has the right to get certificate and academic transcription.

2. For the student who has been considered passing the final examination with revision, then his/her certificate and academic transcription is not given until the student finishes and submit the revision.

3. For the student who has given/submitted the revision has the right to get the certificate and academic transcription in accordance to the date of graduation.

4. The student who has been graduated and considered to have been graduated is not allowed to retake the final examination.
CHAPTER VI
ACADEMIC ETHICS AND RULES

ACADEMIC ETHICS

Academic society is characterized by its relation to academic ethics approved universally, such as honesty, openness, objectivity, willing to learn and develop, respect to each other, and not being discriminative.

Campus society is one of the important parts of academic society. Therefore, the whole component of academic member should understand it correctly and feel connected to the academic ethic. The connection of academic ethics has to be found in every aspect of academic activities, such as lecturing process, research, writing and publication, the use of academic degree et cetera. Thus, it is necessary to explain how the academic ethics are applied specifically in various academic activities as well as the other campus activities. Violation act from academic ethics is an unethical act and or academic violation.

The activities considered as unethical actor academic violation are forbidden acts, such as (1) cheating during the test, (2) plagiarism, (3) jockey, (4) falsification, (5) bribery, (6) discriminative act, and sorts of those acts.

CHEATING
Cheating is a conscious or unconscious activity done by an examination participant including (1) copying other participant’s answer, and (2) using or trying to use material, information, or other study supporting tools which are not allowed during the examination or without the permission of related lecturer.
PLAGIARISM
The form of plagiarism includes taking the idea/opinion/finding of another person in part or as a whole without permission or without mentioning the source honestly.

JOCKEY
Jockey is considered as intentional or unintentional act of replacing the position or doing the assignment or other activities for the sake of other people, with other request or self willing in academic activities.

FALSIFICATION
Forms of falsification include these activities, for instance conducting activity intentionally or without permission of the author replace, imitating or changing/falsifying something in order to get acknowledgement as something original, such as replacing, imitating or changing/falsifying name, signature, score or assignments, practicum, academic transcription, certificate, stamp, students card, academic degree, and statement or report in academic or non academic activity environment, and also giving statement or false witness.

BRIBERY
Bribery is a forbidden act to give or receive money, good, or other forms which is done to gain a certain benefit illegally for both the giver and the receiver. Other activity included in this category is the effort of influencing or trying to influence other people in a persuasive way, giving presents or in form of threat aimed to persuade the assessment toward academic achievement.

DISCRIMINATIVE ACT
It is defined as an act differing the treatment toward a person having the importance in academic activity based on consideration of gender, religion, ethnic, race, social status, and someone physical appearance factors which can result a loss for the person.

OTHERS
Other activities which are included in forbidden acts and can have implication of academic sanction are (1) tearing pages from library book or taking the book or learning facilities without having the right,
break, or make laboratory tool or material and other education facilities disappear, and (2) other activities that can degrade academic society prestige, such as consuming drugs and alcohol, conducting immoral act, and other same activities.

THE SANCTION OF ACADEMIC ETHICS VIOLATION

All the component of academic member who have been proved to violate academic ethic will be punished hierarchically based on the seriousness of the academic violation. Generally the academic sanction can be in form of either of these sanctions:

(a) Oral and/or written hard warning.
(b) Reduction of examination scores for the related course or academic activity.
(c) Considered as failed in passing the examination (crossed) for the related course or academic activity.
(d) Considered as failed for the whole courses taken in the current semester.
(e) Being suspended from the Faculty of Economics and Business of Brawijaya University.
(f) Being fired or dropped out from the Faculty of Economics and Business of Brawijaya University.
(g) The abolition of the degree achieved from Faculty of Economics and Business of Brawijaya University.

Every form of violation will be documented and followed by the approval of statement letter with stamp. Re-violation will get a harder sanction.

Some violations toward academic ethics are also regulated in KUHP (Indonesian Penal Code). The liable institution can give law prosecution toward the one violated academic ethics involving crime elements.
CHAPTER VI - Academic Ethics And Rules

RULES

IN ADMINISTRATION ROOM/OFFICE

For students handling administration are obliged to:
   a. Wear formal and neat outfit (do not wear t-shirt and/or sandals)
   b. Bring the valid Student Identity Card
   c. Not smoke, eat, and drink inside the administration room/office.

To those violated above rules will not get the administration service.

LECTURING PROCESS

Students are allowed to join the lecture if:
   a. The student wears formal and neat outfit (do not wear t-shirt and/or sandals)
   b. The student does not smoke, eat, and drink.
   c. They do not have a conversation which can disturb the lecturing process (includes using hand phone, pager, etc).
   d. The student does not make noise.
   e. The student keeps the classroom clean.
   f. Student’ is registered in official attendance list.

Those who have violated the above rules are not allowed to join the lecture(s).

JOINING THE EXAMINATION

During the mid-test or final test, students are:
   1. Obliged to present 10 (ten) minutes before, and at least 30 minutes after the examination begin.
   2. Not allowed to lend examination utensils (such as tip ex, calculator, ruler, etc).
   3. Not allowed to bring bag, book, and other notes inside the examination room, except for OPENED BOOK examination.
   4. Obliged to bring Study Planning Card and valid Student Identity Card.
   5. Not allowed to go out from the class during the examination, except for those permitted by the supervisor.
   6. Not allowed to ask another student if there is an unclear/wrong question.
7. Not allowed to cheat
8. Obliged to obey the lecturing rules as regulated above and other rules made by the Faculty/University.

Students, who have violated those rules, will be given a sanction in form of:
   a. Not allowed to join the examination, for the violation of point 1.
   b. Sent out from the examination room, for the violation of point 2 and 3.
   c. Shows the letter of permission to join the examination from the examination committee, for the violation of point 4.
   d. Not allowed to continue the examination, for the violation of point 5 and 6.
   e. Other sanctions can be given toward the academic violation as regulated in academic ethics sub-sanction.

THE FINAL EXAMINATION AND GRADUATION:

During the final examination and graduation, students are:
   a. Obliged to wear formal outfit of Faculty of Economics and Business of Brawijaya University
   b. Obliged to obey the all rules of lecturing as regulated above.

Those who have violated the above rules are not allowed to join the Final examination and Graduation.
I. ACCOUNTING

VISION
To be a center of excellence in accounting education and research on the basis of professionalism and ethic values to give great benefit to its stakeholders.

MISSIONS
1. Running high qualified accounting education and relevance to the need of society (stakeholders).
2. Conducting researches which support the running of accounting education and the implementation of good governance both in public and private sectors.
3. Dedicating the result of education and research to the society.

AIMS AND OBJECTIVES
Producing graduates who:
1. Have high competency in accounting and basic skills in research to develop accounting field.
2. Are able to implement accounting knowledge in the practices of accounting profession field and in providing service toward society.
3. Are able to behave professionally, ethics, and religious.
GRADUATE COMPETENCIES

Accounting graduates have to have competencies in:

A. Knowledge and Understanding:
   - Understanding the basic knowledge of economics, management, and accounting.
   - Understanding the conceptual, theoretical, and practical of accounting.
   - Understanding the importance of research and development in accounting discipline continuously.
   - Understanding and realizing that accounting is a discipline which is not free in value and context.
   - Understanding and being aware of the importance of life-long learning.

B. Intellectual, Practical, and Managerial Skills:
   - Mastering the method of accounting development.
   - Mastering the method of accounting research.
   - Having the ability to implement accounting within various organizations.
   - Having the ability to develop accounting information system.
   - Having the ability to apply financial auditing.
   - Having the ability in taxation.
   - Having the ability to use computer in which it is not only used to solve accounting problems, but also to communicate and to access internet.

Refer to the Decree of Minister Education of The Republic Indonesia No. 232/U/2000 about curriculum for higher education, University and College has to adopt: MPK, MKK, MKB, MPB and MBB. International Program of Management Department has the list of courses and number of credits as follow:

The number of credits have to be taken by management students is about 144 CPs (Credit Points) which is divided into 7 groups, i.e:

1. Personality Development Courses (MPK) : 9 credits
2. Basic Knowledge and Skills Courses (MKK) : 58 credits
3. Professional Skills Courses (MKB)
   a. General : 26 credits
   b. Marketing Field : 20 credits
   c. Financial Field : 20 credits
   d. Strategic management Field : 20 credits
4. Working Behavior Courses (MPB) : 8 credits
5. Social Courses (MBB) : 10 credits

PREREQUISITE COURSES:

Students can take those courses with D score. However, at the end of those courses, students have to get “C”. Maximum amount of D score is 10% of 144 credit points, (or four courses), with GPA >= 2.0

EFF1215  Statistics (6 CPs)
This is an introduction to statistics course. This course discusses descriptive statistics, measurements, linear regressions, and correlation. Furthermore, on completion of this subject students should be able to: understand the definition of statistics; represent data in table, frequency distribution table and graphic; find and use trend equation and linear regression; and count and use seasonal index, coefficient of correlation. This course also covers theories and intermediate statistical methods for data interpretation. Then on completion of this subject students should be able to know inference statistic and how to use it. Tutorial is provided in order to train students using basic software of statistics.

BKC4001  Commercial Law (3 CPs)
Commercial law is a field of study correlating two different areas which are business (commerce) and law. After completing this course, student is expected to be able to: a). comprehend the various types of law such as private law, contract law, commercial law; b). comprehend the various types of law related to commercial c). construct students awareness about cases connecting two different areas (law and commerce): type of cases and reasons.

EFF1208  Research Methodology (4 CPs)
Prerequisite: Econometrics I
Students will learn about the basic methods for a research, including quantitative and qualitative methods. The materials cover the basic concept of research methodology, problem formulation, and analysis methods.
DEPARTMENT COMPULSORY COURSES:

EFB1207  Microeconomics I (4 CPs)
Prerequisite: Introductory Economics
This course discusses the theory of consumer and producer behavior, determination of output price under different market conditions, determination of input price under different market conditions, general equilibrium and welfare economics. On completion of this subject students should: understanding the hope and limitations of consumer and producer theory; be able to solve economic models which involve optimization; appreciate the role of value judgment in economics; understand the conditions required for Pareto efficiency in exchange, production and in the composition of output; be able to critically evaluate arguments for government intervention; understand the basic characteristics of public choice mechanisms.

EFB1209  Microeconomics II (4 CPs)
Prerequisite: Microeconomics I
This course focuses on the understanding advanced microeconomics. Topics include efficiency of production under perfect competition and imperfect competition market, general equilibrium, demand and supply of labor, externality and public goods, capital demand.

EFB1206  Macroeconomics I (4 CPs)
Prerequisite: Introductory Economics
Topics include the theory of aggregate demand, the full concept of employment, inflation, money and interest rate in classical and Keynesian model. On completion of this subject students should; understanding the derivation of IS – LM curves; understand models of the labor market and possible relationship between unemployment and inflation; understanding models of balance of payments and determination of international capital movements; be able to critically evaluation macroeconomic policy proposals.
EFB1208  Macroeconomics II (4 CPs)
Prerequisite: Macroeconomics I
This is an advanced level of macroeconomics. Topics of this course involve the theory of the improvement of fluctuation theory, income, consumption, investment, unemployment, money, and open-economy macroeconomic policies.

EFB1307  Development Economics (3 CPs)
Prerequisites: Macroeconomics I, Microeconomics I
This course consists of various problems from the development process within developing countries including economic development theories, general problem in developing countries. It also tries to understand the strategy to find the right solution focused on the learning of basic concepts in economic development and the understanding of the main development problem in developing countries.

EFB1203  Econometrics I (6 CPs)
Prerequisites: Introductory Mathematics for Economics, Statistics
This course is an application of statistics and economic theory to formulate and estimate the economic behavior. Matrix algebra is developed as the main tool of analysis in regression. This course acquaints students with basic estimation theory and techniques in the regression framework, and covers extensions such as specification error tests, heteroscedasticity, errors in variables, and simple time series models. Moreover, it also discusses an introduction to simultaneous equation modes and the concept of identification is provided.

EFB1302  International Economics (3 Credits)
Prerequisites: Macroeconomics I, Microeconomics I
This course discusses the philosophy and basic theory of international trade, using macro and microeconomics theory including the discussion of basic policies in international trade and its effects toward economy.
CHAPTER VII - Curriculum

EFB1305  Monetary Economics (4 CPs)
Prerequisites: Macroeconomics I, Microeconomics I
This course is related to monetary theories, financial institutions, monetary problems, international monetary standard and monetary policy. On completion of this course students should be able to use theories to understand monetary phenomena.

EFB1308  Public Economics (3 CPs)
Prerequisites: Microeconomics I
This course discusses the economics of government budgets and budgetary policy, public economic in relation to income distribution, stability, resource allocation and growth, government revenue and the theory of taxation. It includes budget mechanism analysis and its effects in economy. On completion of this course students should be able to understand and explain the effects from government budgeting and spending in economy, and to understand the implication of it toward the income distribution.

EFB1312  Econometrics II (6 CPs)
Prerequisite: Econometrics I
This course is an implementation of econometrics analysis models by using software. It also discusses materials and topics of intermediate econometrics including time-series model, simultaneous model, panel data and dummy dependent variable.

EFB1501  Economy of Indonesia (4 CPs)
Prerequisite: Introductory Economics
The course aims to explain and assess the function of the Indonesian economy. It is intended to students who are seeking a broad understanding of how the economy works. Emphasis will be placed on the related topics of current economic issues, institutions and policies. The approach adopted will emphasize that the present Indonesian economy needs to be seen in the context of the historical pattern of development and change. While the course deals primarily with economic factors, important social and political circumstances will also be taken into account.
EFB1205 Intermediate Mathematics for Economics (4 CPs)
Prerequisite: Introductory Mathematics for Economics
Intermediate Mathematical Economics is an intermediate economic analysis using mathematical approach, such as derivative, lagrange multiplier, integral, input-output analysis, and basic linear programming.

STUDY PROGRAM COMPULSORY COURSES:

EFB1407 Economics of Financial Institution (3 CPs)
Prerequisite: Monetary Economics, Central Banking
This course describes how financial system is applied in economy, and problems have been solved in the implementation of this system.

EFB1418 International Finance (4 CPs)
Prerequisites: Monetary Economics
This subject covers financial and macroeconomic issues in international economics, including the international monetary system, exchange rate determination, forward and future markets for foreign exchange, government intervention in foreign exchange markets.

EFB1533 Banking and Finance Seminar (3 CPs)
Prerequisite: Financial Management, Econometrics I
Under faculty supervision, students read original research material and evaluate the contribution of the research to the understanding in terms of banking and finance sectors. Students present several short papers and critically review the material studies.

EFB1527 Capital Market Seminar (3 CPs)
Prerequisite: Capital Markets and Mutual Funds, Econometrics I
Under faculty supervision, students read original research material and evaluate the contribution of the research to the understanding in terms of capital market. Students present several short papers and critically review the material studies.
EFB1204  Financial Management (4 CPs)
Prerequisite: Introductory Management
This course covers various techniques, ways and methods in a basic level concerning some functions in financial management such as financing, investment, expenditure, and also profit share policy in order to optimize the value of corporate.

EFB1401  Central Banking (3 CPs)
Prerequisite: Monetary Economics
This course covers the management of monetary authority or institution that manages a state’s currency, money supply, and interest rates. Student will also learn the way of central banking to oversee the commercial banking system in the country.

EFB1340  Financial Report Analysis (4 CPs)
Prerequisite: Introductory Accounting
This course covers the process of reviewing and analyzing the financial statements to make better economic conditions. The statements include the income statement, balance sheet, statement of cash flow, and the statement of change in equity.

EFB1527  Capital Markets and Mutual Funds (4 CPs)
Prerequisite: Macroeconomics I, Microeconomics I
This course aims to understand the financial markets in which money is provided for periods longer than a year, such as for long-term debt or equity securities. Meanwhile the mutual funds is an investment vehicle made up of a pool of funds collected from many investors for the purpose of investing in securities, such as stocks, bonds, and similar assets.

EFB1505  Treasury Management (3 CPs)
Prerequisite: Financial Management
This course aims to understand the management of an enterprise’s holdings, with the ultimate goal of managing the firm’s liquidity and mitigating its operational, financial and reputational risk.
CHAPTER VII - Curriculum

**EFB1511 Risk Analysis and Investment (4 CPs)**
**Prerequisite: Capital Markets and Mutual Funds, Financial Mgmt.**
This course aims to understand the potential losing something of value in each situation. The approach emphasizes the nature and processing the data used and specific combinations of variables like cash flow, return on investment, and risk to estimate the odds for each potential outcome.

**EFB1515 Stock Market Simulation and Online Trading (4 CPs)**
**Prerequisite: Fundamental and Technical Analysis, Capital Markets and Mutual Funds**
This course aims to understand the work of live stock market and online trading on a computer based so that a student may practice trading stocks without financial risks. This is done by the manipulation of imaginary money and investments position that behave in a manner similar to the real markets.

**EFB1442 Fundamental and Technical Analysis (4 CPs)**
**Prerequisite: Financial Management**
This course aims to understand the fundamental analysis from the overall economy and industry conditions to the financial condition and management of companies, while the technical analysis studies the evaluation of securities by means of studying statistics generated by market activity.

**EFB1517 Monetary and Fiscal Coordination (3 CPs)**
**Prerequisite: Monetary Economics**
This course aims to understand the interactions between fiscal policy and monetary policy to achieve its monetary objectives, including the sustained economic growth and price stability and a sustainable balance of payments.
